

Two Days Online Course on

HOSPITAL PROCUREMENT VIGILANCE

for Administrative/Procurement Officers in
Government Healthcare Institutions

Course Date: September 15-16, 2020

PARI TRAINING INSTITUTE

INTRODUCTION

An effective vigilance administration requires continuous capacity building of the vigilance functionaries and all other stakeholders (Sh. Pradeep Kumar, Former Central Vigilance Commissioner, 2013). Undoubtedly, unless all the stakeholders are involved in the process of making the procurement and contract system transparent, objective, just and effective vigilance can not be achieved.

In the context of government organizations, transparency and accountability in governance are imperative. The root cause of poor governance lies in illegal gratification or corruption which in turn affects productivity, efficiency, image, and sustainability. The area of contract management and procurement are key in managing any public institution. Any mismanagement in the award and execution of contract and procurement may result in heavy leakages in revenue and adversely impact the image and the reputation of the institution, besides a heavy drain on taxpayers' money.

The endeavour of the proposed *Two Days Online Course on Hospital Procurement Vigilance* for the administrative/procurement officials is to build/strengthen their capacity to improve the system in the organization so that lapses/irregularities can be prevented and the more objective, transparent and professional system can be put in place.
