INTRODUCTION TO THE PROGRAMME IN NEW DELHI

The Prime Minister Sh. Narendra Modi's call of 'Vikasit Bharat' by 2047 is extremely significant. He has rightly said that for a developed India, trust and credibility are critical and the ultimate aim for any civilised nation is to usher in a corruption free society. The roadmap to a developed India definitely lies in striving for a corruption free nation and a multipronged strategy of preventive, punitive and participative vigilance coupled with high integrity and moral values constitute the holistic approach for the way forward. The initiative of optimizing the use of technology including Artificial Intelligence is bound to be a deciding factor in eradication of corruption from public life as technology would ensure elimination of human intervention and use of discretion in decision making process, which would help in equal opportunities to all and cherished dream of a developed nation, based on ethical conduct will be realized.

About International Anti-Corruption Academy (IACA)

IACA was initiated by the United Nations Office on Drugs and Crime (UNODC), INTERPOL, the European Anti-Fraud Office (OLAF), the Republic of Austria, and other stakeholders. The idea of an international anti-corruption academy arose out of INTERPOL's International Group of Experts on Corruption, which at the time included Martin Kreutner, who became IACA's first Dean, Michael Hershman, Chairperson of IACA's International Senior Advisory Board, and the late Franz-Hermann Brüner, Director-General of OLAF at the time. The adoption of the United Nations Convention against Corruption (UNCAC) in 2005 and its subsequent implementation in many countries also played an influential role.

IACA, located in Laxenburg, Vienna, Austria is the world's best institution for imparting capacity building training programmes for Mid and Senior level officers/executives in the Ministries/Departments, PSEs and Autonomous Bodies under Central and State Governments including State Legislative Assemblies in India. The IACA advances the goals of the United Nations Convention against Corruption, promotes the rule of law, and provides support and technical assistance for states, organizations, corporations, and other stakeholders.

The principal mission of IACA is to deliver and facilitate anti-corruption education and training for professionals and practitioners from all sectors. Their holistic curricula address a wide range of disciplines and cater to various regions of the world. Furthermore, they also advance an understanding of the cross-cutting and devastating nature of corruption and thus call for a broader contextualization.

IACA in collaboration with PARI has successfully completed the 3 batches on Tailor Made Leadership Training Programme on Anti-Corruption & Good Governance for Indian officers in March, June 2024 and Sept-Oct, 2025. IACA has now decided to organise the next batch from 21 to 28 February 2026.

Outcome of Training

Corruption is a global phenomenon that constitutes a serious barrier to smooth public service delivery. Corruption in the public sector hampers the efficiency and credibility of public services, undermines confidence in public institutions, and increases the cost of public transactions. It has devastating effects on economic growth, foreign investments, and social development, negatively impacting a population's quality of life. Integrity is considered essential for building strong state institutions resistant to corruption.

As corrupt practices are becoming more sophisticated, the "Tailor Made Leadership programme on Anti-Corruption and Good Governance" in the Era of AI developed by International Anti-Corruption Academy (IACA) will be able to address the above challenges, advise senior officials working in vigilance administration within public institutions and public enterprises of India on the latest developments, and give them the possibility to gain further insight on best practice examples and initiatives together with renowned international professors and practitioners.
