On

Anti-Corruption & Good Governance In The Era Of Artificial Intelligence

In Collaboration With

Indian Institute of Management Tiruchirappalli (IIM Trichy)

For Officers duly nominated from Ministries/Departments, Public Sector Enterprises,
Autonomous Bodies, State Legislative Assemblies and Private Organisations.

TRAINING SCHEDULE : Wed, the 07th - Sat, the 17th OCT 2026

International Training Programme

“Anti Corruption and Good Governance in the Era of AI”

Introduction & Justification of the Programme

The Prime Minister Sh. Narendra Modi’s call of ‘**Vikasit Bharat**’ by 2047 is extremely significant. He has rightly said that for a developed India, trust and credibility are critical and the ultimate aim for any civilised nation is to usher in a corruption free society. The roadmap to a developed India definitely lies in striving for a corruption free nation and a multipronged strategy of preventive, punitive and participative vigilance coupled with high integrity and moral values constitute the

holistic approach for the way forward. The initiative of optimizing the use of technology including Artificial Intelligence is bound to be a deciding factor in eradication of corruption from public life as technology would ensure elimination of human intervention and use of discretion in decision making process, which would help in equal opportunities to all and cherished dream of a developed nation, based on ethical conduct will be realized.

Justification for Participation of Private Sector Organisations

In an era marked by heightened regulatory scrutiny and an increasing emphasis on corporate integrity, the obligations cast upon corporate entities under the **Companies Act, 2013**, read in conjunction with the **Prevention of Corruption (Amendment) Act, 2018**, have significantly expanded the scope of accountability, transparency, and ethical governance within the private sector. While the Companies Act mandates robust internal controls, fiduciary responsibility of directors, and the establishment of vigilance and compliance mechanisms, the amended anti-corruption framework introduces corporate liability for failure to prevent bribery and underscores the necessity of “adequate procedures” to mitigate corruption risks.

Together, these legislative frameworks underscore a clear and compelling mandate: organisations must proactively institutionalize integrity systems, risk mitigation strategies, and compliance mechanisms. In this context, structured capacity-building and specialised training programmes are not merely developmental initiatives but essential instruments for ensuring legal compliance, safeguarding organisational reputation, and fostering a culture of ethical leadership.

Participation in such programmes enables private sector organisations to equip their executives with the requisite knowledge, global best practices, and practical tools necessary to navigate complex regulatory expectations and contribute meaningfully to a transparent, accountable, and corruption-resilient business environment.

The Leadership Programme on Anti-Corruption and Good Governance in the Era of Artificial Intelligence, jointly organised by the PARI in collaboration with the IACA, and delivered in association with the Indian IIM Calcutta, offers a unique and highly enriching platform for such capacity building. By bringing together international expertise, cutting-edge insights on emerging technologies such as Artificial Intelligence in compliance and corruption prevention, and the academic rigour of one of India’s premier management institutions, the programme provides participants with a holistic understanding of governance challenges in the modern era, thereby making it exceptionally beneficial for private sector organisations seeking to enhance their compliance capabilities, leadership effectiveness, and long-term institutional resilience.

International Training Programme

“Anti Corruption and Good Governance in the Era of AI”

About PARI, New Delhi, India

The Parliamentary and Administrative Research Institute (PARI), based in New Delhi, is a premier institution dedicated to strengthening India’s democratic and administrative foundations.

PARI was established with a view to undertake meaningful research on parliamentary and administrative issues in India and provide capacity building courses to enable the stakeholders to deal with governance efficiently. The capacity building courses are tailor-made for officers working in Central Government Ministries/ Departments, Autonomous Bodies, PSEs & State Assembly/Council secretariats and State Governments. **PARI has recorded a successful execution of 24 international capacity building courses so far namely:**

i. The Leadership programme on Public Policy and Public Health Policy in collaboration with DODS Parliamentary Communication, London, the U.K, and The John Curtin Institute of Public Policy, Perth, Australia.

ii. The Leadership Programme on Mental Health Systems Development and Public Health Policy in collaboration with School of Population and Global Health, University of Melbourne, Australia.

iii. Leadership Programme on Anti-Corruption and Good Governance in collaboration with International Anti-Corruption Academy, Laxenburg, Vienna, Austria.

About IACA, Laxenburg, Vienna, Austria

IACA was initiated by the United Nations Office on Drugs and Crime (UNODC), INTERPOL, the European Anti-Fraud Office (OLAF), the Republic of Austria, and other stakeholders. The idea of an international anti-corruption academy arose out of INTERPOL’s International Group of Experts on Corruption, which at the time included Martin Kreutner, who became IACA’s first Dean, Michael Hershman, Chairperson of IACA’s International Senior Advisory Board, and the late Franz-Hermann Brüner, Director-General of OLAF at the time. The adoption of the United Nations Convention against Corruption (UNCAC) in 2005 and its subsequent implementation in many countries also played an influential role.

IACA, located in Laxenburg, Vienna, Austria is the world’s best institution for imparting capacity building training programmes for Mid and Senior level officers/executives in the Ministries/Departments, PSEs and Autonomous Bodies under Central and State Governments including State Legislative Assemblies in India. The principal mission of IACA is to deliver and facilitate anti-corruption education and training for professionals and practitioners from all sectors. Their holistic curricula address a wide range of disciplines and cater to various regions of the world. Furthermore, they also advance an understanding of the cross-cutting and devastating nature of corruption and thus call for a broader contextualization.

IACA Signs MoU with PARI Training Institute to Strengthen Long-Term Cooperation

27 February 2026

The International Anti-Corruption Academy (IACA) and the PARI Training Institute have signed a Memorandum of Understanding (MoU) further strengthening their collaboration in the field of anti-corruption and good governance.

By formalizing this partnership, IACA reaffirms its commitment to developing tailored, forward-looking training solutions for the PARI Training Institute and to strengthening international cooperation in addressing emerging corruption challenges in the digital era.

After signing the document, Mr. Drago Kos, the interim Dean of IACA said: *“Cooperation across borders is essential in today’s fight against corruption. Our collaboration with PARI demonstrates how international expertise and national leadership can come together to strengthen institutional resilience. Through this partnership, we aim to support sustainable capacity-building efforts that reinforce ethical governance and long-term integrity systems.”*

Dr. Narmadeshwar Prasad, Founder Director of PARI commented: *“This MoU is not merely a document, it is a declaration of our shared vision to build an India where integrity in governance is not just an aspiration, but a living reality. PARI is proud to walk this path with IACA, and we look forward to empowering our nation’s finest public servants with the knowledge and tools to uphold the highest standards of accountability.”*

The MoU was signed in the margins of the *Tailor-Made Leadership Training Programme on Anti-Corruption and Good Governance in the Era of AI*, delivered at IACA’s premises in Laxenburg, Austria, from 23 to 27 February 2026.

The partnership between IACA and PARI Training Institute started in 2021 with the joint planning and design of tailor-made training programmes, which began to be delivered in 2024. So far, four batches of specialized Anti-Corruption and Good Governance training programmes have been implemented by both institutions, benefiting more than 40 senior and mid-level government officers drawn from across the spectrum of India’s public institutions spanning Central Government Ministries, State Governments, and Public Sector Undertakings (PSUs).

During the last training, over the course of five days, the participants engaged in in-depth discussions on corruption and electronic evidence, examined the growing role of artificial intelligence in preventing and detecting corruption risks, and explored complex issues related to public procurement and ethical decision-making. The sessions combined academic expertise with practical insights and interactive exchanges, fostering meaningful dialogue and peer learning. The programme also included a visit to the Vienna International Centre, offering participants an additional perspective on international anti-corruption efforts and multilateral cooperation.

Faculty at IACA, Laxenburg, Vienna, Austria

Judith Stemerding-Herret is an organizational consultant, trainer and business administrator. After ten years in the Austrian private sector with focus on controlling and finance she decided to look for new adventures. These led her to living and working as a

humanitarian aid and development worker in Kenya, Uganda and Côte d'Ivoire for 7 years. She aspires positive change and constantly search for innovative ways to achieve necessary adjustments. Her aim is to enable reflection and transformation at personal, organisational, and systemic level to live and use the collective wisdom of humans. She loves hosting enabling spaces where new ideas can emerge, unique networks are created and unexpected fresh paths are experienced.

Caroline Nicholas is a Senior Legal Officer with the International Trade Law Division of the United Nations Office of Legal Affairs (the UNCITRAL Secretariat). She has served as Secretary to its Working Group on Procurement and

Infrastructure Development, which drafted the

UNCITRAL Model Law on Public Procurement, an accompanying Guide to Enactment, and other documents in the field. She previously advised on international war damage claims at the UN Compensation Commission, was a UN internal investigator, and has practiced law in the City of London and Hong Kong. She also serves as a Chairman of a UN Performance Appraisal Rebuttal Panel and undertakes voluntary policy advice and conflict resolution roles within the UN Secretariat.

Drago Kos is currently the Chair of the OECD Istanbul Anti-Corruption Action Plan and a member of the IACA Academic Advisory Board. Between 2014 and 2022 he was the Chair of the OECD Working Group on Bribery in International Business

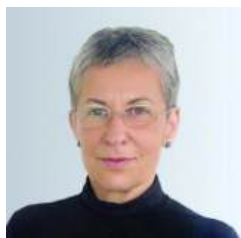

Transactions, between 2003 and 2011 he was the Chairman of the Council of Europe's Group of States against Corruption (GRECO). In his country, Slovenia, he was the first Chair of the Commission for the Prevention of Corruption and leader of a working group, which produced the Slovenian Corporate Integrity Guidelines.

Vytenis Benetis is the Director of i-intelligence in Asia. Vytenis has worked as an intelligence analyst for a decade. His professional experience covers a wide range of missions and organizations including the Lithuanian Ministry of Defence, NATO, and the European Union on both the

operational and strategic level. While working as an analyst, and later as a team leader, Vytenis developed practical solutions to tackling large information flows and delivering actionable intelligence to senior decision makers. Vytenis has an extensive engineering academic

background: he holds B.Sc. degree in Systems Engineering from the U.S. Naval Academy and PhD in Mechanical Engineering from the University of Maryland. His mandates have spanned a range of intelligence disciplines including criminal intelligence, cyber intelligence, fraud investigations, counterterrorism and general open source and social media investigations. As the company's lead instructor in Asia, Vytenis has provided training to dozens of government agencies and international organizations in the region. Vytenis has also been consulting the UNCCT on various projects helping UN member states to counter terrorism. As such, he is sensitive to regional security challenges and local information cultures.

Katalin Pallai is a distinguished policy expert, educator, and coach with over 30 years of international experience in consulting, education, and facilitation. Her work focuses on leadership, ethics and integrity

management, negotiation, and the facilitation of co-creative processes. She has served leaders and organizations in 16 countries, advising high-level government officials, civil society actors, and development agencies including the World Bank, European Commission, UNDP, UNODC, USAID, and the Council of Europe. Katalin holds a PhD in Political

Science from the Central European University. She played a pioneering role in integrity education for civil servants in Hungary, notably as an associate professor at the National University for Public Service, where she developed the country's curriculum for integrity advisors. Currently, she is a senior lecturer at the International Anti-Corruption Academy (IACA) and a key expert in the Council of Europe's Leadership Academy Program. She is known for her systemic, value-based coaching methods and experiential, dialogic teaching style. Katalin has authored several publications on public policy, integrity, and urban strategy most notably The Budapest Model, which she edited for the World Bank and Open Society Institute.

Eduard Ivanov is Head of Research & Analytics Department at the International Anti-Corruption Academy (IACA). He has a solid academic and practical experience in compliance, preventing and combating corruption, money-laundering,

and terrorist financing. He leads the IACA' research projects on typologies of corruption offences, integrity and anti-corruption compliance in sport and in the humanitarian aid sector.

Eduard Ivanov lectured at the FGV Sao Paulo Law School (Brazil), the University of Nice (France), the University of Muenster (Germany), and the Ca' Foscary University of Venice (Italy). He served as co-chair of the Working Group on Typologies in the Eurasian Group on Combating Money Laundering and Financing of Terrorism and was a member of the FATF Working.

Logistics at IIM Trichy

How to reach IIM Tiruchirappalli ?

The distance from the Trichy Airport to IIM is 22 km, and the distance from the Trichy Railway Station is 20 km.

By Air: The participants can reach Tiruchirappalli airport directly by non-stop flights from airports in Chennai, Bangalore, and Kochi.

By Train: Tiruchirappalli also has very good train connectivity. The Tiruchirappalli railway station lies between Chennai and Madurai. Both these stations are very well connected to the rest of the country by several important trains.

Logistics at PARI, New Delhi

The distance from the airport to PARI Headquarters is approximately 10–12 km, and the distance from New Delhi Railway Station is approximately 12 km (Hazrat Nizamuddin Railway Station ~8 km).

By Air: The participants can reach Indira Gandhi International Airport through regular domestic and international flights. The airport is well connected to major cities across India and the world. From the airport, PARI Headquarters can be accessed via taxi or app-based cab services.

By Train: New Delhi has excellent railway connectivity. The nearest major railway stations are New Delhi Railway Station and Hazrat Nizamuddin Railway Station, both of which are well connected to all parts of the country through numerous trains.

By Metro/Road: The nearest metro station is Bhikaji Cama Place Metro Station on Pink Metro Line, located within walking distance of the venue. The office is situated at Bhikaji Cama Place and is easily accessible via taxis, autos, and city buses.

Logistics at Vienna

Accommodation In Vienna: IACA will arrange standard and comfortable accommodation for the participants for 6 nights in Vienna, Austria (from the night of Sunday to Saturday 11 am). Breakfast will be provided by the Hotel on all days. The Participants will have to arrange lunch and dinner on their own during their stay in Vienna.

Medical Insurance: The Participants are advised to get their Medical Insurance (International travel) done before leaving the country. The sponsoring organization is responsible to reimburse the premium amount paid on it.

Travel Arrangement: The Sponsoring/Nominating organisations will bear the cost of the participants' international travel for attending training programmes in Vienna, Austria as per the entitlement of the participant. The participants are requested to purchase Air tickets as per their entitlement and reach Vienna by Sunday, the 22 February 2026. The Hotel Check-in time is 03.00 pm.

Passport and Visa Application: PARI will provide Visa Assistance. Once the nomination along with fee is received, participants will have to visit VFS Global Centre, New Delhi or any other centre as per their convenience with the valid documents for their Visa. IACA will issue a note verbale (official invitation) for the nominated offers. It is a Turnkey Programme and therefore, the Participants can travel on Blue Passport (Personal passport) which should have the validity of at least 3 months from the date of arrival in Austria. The Diplomatic Passport holders do not need a visa to enter Austria, hence they need not apply for a visa.

Envisaged Outcome of the Training

Corruption is a global phenomenon that constitutes a serious barrier to smooth public service delivery. Corruption in the public sector hampers the efficiency and credibility of public services, undermines confidence in public institutions, and increases the cost of public transactions. It has devastating effects on economic growth, foreign investments, and social development, negatively impacting a population's quality of life. Integrity is considered essential for building strong state institutions resistant to corruption. As corrupt practices are becoming more sophisticated, the "Tailor Made Leadership programme on Anti-Corruption and Good

Governance" in the Era of AI developed by International Anti-Corruption Academy (IACA) will be able to address the above challenges, advise senior officials working in administration within public institutions and public enterprises of India on the latest developments, and give them the possibility to gain further insight on best practice examples and initiatives together with renowned international professors and practitioners.
